

## CIRCUITRIX

### Task

The aim is to remember complex electrical and electronics circuits shown, and implement them in hardware form in the least time possible.

### Progress

**LEVEL I:** Here the participant is shown an already assembled circuit and he or she is expected to reproduce the same on the sheet provided. The faster the better.

**LEVEL II:** Now that the participant is accustomed to Multisim, he or she is provided with a circuit familiar to him on a sheet of paper. He or she is supposed to execute it on the software. The one who qualifies to this level will be promoted to the next level.

**LEVEL III:** Participants are given a circuit on the sheet of paper. They need to assemble the circuit on the Breadboard and should produce the Desired Output.

### General Rules:

1. No participation fee.
2. A team consisting of two members will be formed after level one.
